This listing of contractors may be incomplete. The N.C. Forest Service does not guarantee the contractors performance, and no recommendations or sponsorship of any single individual or firm is implied. Landowners should obtain references and evaluate qualifications prior to choosing a contractor.

#### Herbicides (Pesticide) Licensing

For a person to prescribe herbicide use or apply herbicide on another's property, they must be licensed by the state of North Carolina. The N. C.

Department of Agriculture and Consumer Services Pesticide Section and the N.C. Pesticide Board manage the licensine process. More information, including a list of licensed herbicide professionals, is available at the following website: [www.ncagr.gov/SPCAP/pesticides/index](http://www.ncagr.gov/SPCAP/pesticides/index)

**If you are receiving cost-share assistance for the herbicide treatment, the N.C. Forest Service must review and approve the HHP prior to the herbicide work being performed. Landowners are also responsible for returning completed HHP to their Forester for cost share reimbursement.**
