

The North Carolina Forest Service operates three training facilities located in Crossnore, Kinston and at Jordan Lake. Both Crossnore and Kinston locations offer overnight accommodations, dining services and classroom environments with internet access and multimedia capabilities. The training facility located at Jordan Lake Educational State Forest is a newly completed classroom facility only. The campuses are available for use by state agencies and other institutions or organizations at reasonable rates. For more information about reserving facility space, please contact the facility managers listed below.
